

GRAPHICS ASSISTANT

One of British Columbia's leading Architectural Firms has a new opportunity for the position of Graphics Assistant.

You: Have basic AutoCad, Revit, and advanced Sketch-Up, 3D-Studio, Photoshop, and In-Design skills. You may have been trained as an architect or architectural technician, but your primary career path and love is graphics as this is not a technical position. Strong skills in Microsoft Excel and Word will also be required for the position as well as native English fluency, both spoken and written.

The Position: Entails graphic design for proposals, supportive roles in our marketing department, and complex 3D modeling of Architectural projects both in sketch form and to the final Client presentation drawings. Often under fast paced deadlines.

An attractive compensation and benefits package will be available to the right person. Excellent downtown location, and collegial work environment.

Please send your written resume and samples of your work electronically to:

ABBARCH Architecture Inc

Attention: Letitia Weatherill, Director of Marketing
